Paul Reilly, DFG
20 Lower Ragsdale Drive, Suite 100
Monterey, CA 93940

Mr. Reilly,

Please give proper consideration to sports fisherman in the possible establishment of MLPAs.

The coast is indeed a natural wonderland and sports fishing honors this quite as much as anything else.

Personally, I support the establishment of scientifically based no fishing zones in moderation and with a dialog and input of the sport fishing community.

This coast has been fished for thousands and thousands of years by humankind and I think it would feel lonely and strange without fisherman about for the most part. Thank you.

Sincerely

Steven S. Case
